

2025年 高瀬川 活動報告

京都市が進めていた菊浜学区の高瀬川護岸工事に賛同し、2022年の寄付決定以降継続的な協力を継続。2025年は『護岸の修復工事』『既存・新規植栽の植樹』『親水空間整備』全ての工事が滞りなく完了。街の方々を中心に憩いの場として利用が開始されている。

In collaboration with Kyoto City's Takase River bank reconstruction project in the Kikuhama District, we have continued our cooperation since the decision to make a donation in 2022. In 2025, all phases of the project — including embankment restoration, the planting of existing and new vegetation, and the development of a waterside recreational space — were completed successfully without delay. The area has begun to be used as a place of relaxation, primarily by local residents.
